

This book gives you some of the most powerful marketing secrets that author T.J. Rohleder has used to generate millions of dollars in his business. The first chapter shares the title of this book and tells you the only 3 ways you can build your business! As you'll discover, as complicated as business can be, it's refreshing to know that there are some very basic business-building methods that help you put everything in proper perspective. This is exactly what you'll find in chapter one. You'll go over this first chapter carefully and then go through the rest of the book to discover even more marketing secrets (which really are secrets because very few or even NONE of your competitors are using them) in the other chapters.
