

This volume presents a comprehensive system for categorizing carbon nanotubes and their modifications in terms of nano sheets, nanotubes, microscopic and atomic modifications. In addition, the material and geometric properties of these nano-configurations are addressed. Lastly, it introduces a number of common software packages for geometry generation and several commercial finite element programs.

Joy Comes with the Morning: The Positive Power of Christian Encouragement, Holographic Interferometry: Principles and Methods, Experiments in Applied Physics, Media Training and Presentation Skills. How to deal with the Media for Business and Profit., Sex, Jimmys Boa Bounces Back, Cosmologists Second (Anomalies), Well, How Did We Get Here? A Brief History of the British Economy, Minus the Wishful Thinking, Every Man Sees You Naked: An Insiders Guide to How Men Think, The Ancient Egyptians (Understanding People in the Past Series),
