

Check-In; Check-Out (reprint)

For courses in Hotel Front Office Management. The leader in rooms management education and job-training for over two decades. This text provides exceptionally complete coverage of the hotels front office and all of the support positions that make it work--from the global reservation network, to legal concerns, sales and marketing techniques, management issues, room rate formulas, and control and oversight. The seventh edition of Check-In; Check-Out focuses on the broad view of lodging management and all that it entails. In a sequence that follows the flow of most guests--reservation, arrival, billing, departure, auditing and accounting--the book treats both the how (e.g., completing a reg. card) and the why (e.g., yield management) while keeping students abreast of the trends currently affecting the industry.
