

Beings of Light - We are All ONE

This is the story of Jonathan Smith, an average guy, who spent the majority of his life trying to find purpose and reason. The only real quest he had was for truth. He wanted more than anything to know who he really was, where he came from, and what would happen to him when he died. Jonathan had all but abandoned any hope of knowing such things when, through an unexplained occurrence, he found himself outside of time and space in a Realm of Thought and Light. Through his experience, Jonathan came to understand who he was. He once again was brought back into the knowledge of all the things he had forgotten. He saw and experienced the Entities of Light, the Beings of Light, the Light World, the World of Matter, the Entities of Self and so on. He learned the nature of good and evil and he came to understand why things appear the way they do. Jonathan, knowing he could stay in the World of Light, came back to share his story with us, that we might remember who and what we are. --Please visit www.laynelayton.com
