

Basketball Droids Have Taken Over My Neighborhood (Chance Bradley Adventure Books Book 1)

Chance Bradley is a smart kid who is an inventor and talented at sports. After creating a droid for his science project that can play basketball with him, he thinks his life is perfect. That is until strange things start going on in his neighborhood and his droid may want to take more than just jump shots. A fun action-adventure science fiction kids book for ages 9-12 and adults. Childrens Chapter Book with 9 Color Illustrations

The Chance Bradley Adventures Series are action-packed stories filled with sports, action, science fiction, adventure and a hint of fantasy. Praise for the Chance Bradley Adventure Series: Bought this book for my son and he loved it. I can tell when he really likes a book. He reads a bit and comes tell me what he just read and goes back and does the same thing again. When it was done, he wanted more.... - Darren Hosier

The hero is a boy easily identifiable as an everyday kid you'd meet in school doing the things kids do each day, who just happens to be super smart. He has all the other insecurities and hang-ups all kids go through. Its an entertaining, fast read. - Kathy Ivan

I got a kick out of the creative plot that seemed somewhat believable and then wound into a fantasy filled plot that will take kids on an imagination filled journey. - Greg Merchant
