Mermaid Toast Is The New Most Instagrammable Thing On The Toast is sliced bread about 1/2 inch (13 mm) thick that has been browned by exposure to radiant heat. This browning is the result of a Maillard reaction altering the flavor of the bread and making it firmer so that it is easier to spread toppings on it. Toasting is a common method of making stale bread more palatable. **A Toast To The Host With The Most Toast - YouTube** Apr 17, 2017 Though it seems the masses have not tired of avocado toast just yet, another dish has challenged its slot as the trendiest toast and taken the **What is Winstons last toast?
