

Business Travel

Deals exclusively with the business travel sector of the tourism industry. Beginning with an overview of the industry and its principal providers and customers, the six main chapters give a thorough coverage of each sector of business travel. In each case there follows an analysis of current trends drawing on official statistics, articles from the press and published reports. Each chapter contains detailed case-studies drawn from business travel organisations and companies in Britain and overseas, including Berkeley Hotel, Gatwick Airport and Virgin Atlantic. These provide relevant illustrations of the information given and the issues explored.
