

CHINAS HARMONY RENAISSANCE: What the World Must Know

FOREWORD Unilateralism and cultural conflicts in the beginning of the 21st Century seem to be unstoppable in view of extremism between conflicting parties and the overwhelming U.S. media dominance around the globe. Even though the Western media may have all the good intentions of spreading democracy worldwide, to those who yearn for diversity of culture and international opinion in the United States, the American domination of world media and world government policies have been stifling indeed. The recent rediscovery of ancient Chinese philosophies of balance and harmony in China cannot be timelier. The U.S. is badly in need of a dose of the gentle, tolerant and accepting Eastern philosophy that is the essence of Chinese wisdom. This can be particularly inviting for those who are truly interested in Chinese language, culture and world harmony. This primer on ancient Chinese harmony teaching can hopefully bring a glimmer of light to those hopeful that The World of Harmony Will Surely Come .

China during the last one hundred and fifty years, ever since the Opium War, has been searching for its identity. The present Peoples Republic of China, rising from the plunder of Western and Japanese Imperialism, is only fifty seven years old. It is relatively young and short in terms of China s glorious five thousand years of ancient history. For 2500 years China has benefited from the long tradition handed down from Laotze and Confucius which emphasized its rich cultural value in harmony teachings. It is this harmony culture that enabled China to survive changes in power, foreign invasions, internal strife, other struggles throughout its long history. Today, China has rediscovered its ancient heritage in the teachings of harmony, and, in doing so, China rediscovered itself. This is not unlike Europe s rediscovery of ancient

Greek democracy during the European Renaissance period after the Dark Ages that led to the Enlightenment and the sp
