

PAINTING FACES: The Art of Public Relations

While many women working in offices were making coffee, Frances Friedman was making history. In the notoriously sexist age now being brought to life in the hit TV series, *Mad Men*, Fran became the first woman president of a top ten international PR firm, the GCI Group, a subsidiary of Grey Advertising. *Painting Faces: The Art of Public Relations* is a fascinating collection of case histories. Its also an insiders candid picture of the first woman to occupy the corner office in a major, dynamic agency ... a woman who had it all fifty years before anyone thought it possible.
