

Coral Snake/Serpiente Coral (Killer Snakes/Serpientes Asesinas)

If the phrase red on yellow will kill a fellow means something to you, you're in good standing; you know an important life-saving fact about deadly coral snakes. Many other snakes look much like them, but only the coral snake has red bands between yellow bands. Captivating text in English and Latin-American Spanish, paired with vibrant photographs of these colorful creatures, takes English language learners into the wild for a close-up view of this venomous serpent.
