

Crash Testerz: Identity for Eternity

Participating in an after school program with Test Facility Global, local schools help students visit their parents at work. Test Facility Global is a corporation made of many businesses such as vehicle manufacturers and insurance companies from around the world. Test Facility Global uses test facilities to research human safety by using crash test dummies in a wide range of test scenarios. Something special happens when certain students get near to the crash test dummies-they come alive! The crash test dummies come alive and share the Bible with the visiting students.
