

## Dinosaur Trouble

SOMETIMES THE MOST UNLIKELY PAIRS MAKE THE BEST OF FRIENDS. A hilarious prehistoric yarn for newly-independent readers from a master of childrens animal stories. All pterodactyls know that flying dinosaurs are superior, and all apatosauruses know that any dinosaur with only two legs is surely second-class. Nosy, a pterodactyl, and Banty, an apatosaurus, become great friends even though their parents have forbidden them to play together. With Nosys fast flying and Bantys smarts, the two take on the biggest predator on the Great Plain, and conquer their parents prejudices in one great adventure.
