

Super Sound (Science Starters)

How does sound travel? Are two ears better than one? Can you feel sound? Can you trap it? All these questions and many more are answered in *Super Sound*, which explores the different aspects of sound. *Science Starters* introduces younger readers to science in a structured but lively way. Each book explores an aspect of science. Activities and experiments, designed to make learning fun, complement the scientific points outlined in the simple introductory text.
