

The Lion Mountains: The beauty and spirit of Sierra Leone captivate a young English girl (Faraway Lands Book 2)

A heartwarming tale of the bonds and differences between two disparate cultures. A delightful book, funny and poignant. Readers Review It is 1956 in Sierra Leone. Eight year old Melanie is spending several months with her parents while her father completes a civil engineering project. Swiftly enthralled by the primeval power of this beautiful African country, she soon discovers that, beneath its happy and apparently carefree exterior, there lurks danger and fear. With the innocent eyes and intuition of a young English girl, Melanie learns of the bond of friendship that exist between people of different races. Pounding with the vibrancy of African colour and music, occasionally sad but always engaging, this is a story that captures the heart.
