

Goodnight Malaysian 370: The truth behind the loss of flight 370

Shocking new book on the disappearance of Malaysia airlines flight 370 The truth behind the loss of Flight 370 will shock the travelling public. The book by New Zealand pilot Ewan Wilson and journalist Geoff Taylor presents compelling evidence about what actually occurred in the final hours of Flight 370, some of it based on new interviews with family members of pilot Zaharie Ahmad Shah. The disappearance of Malaysia Airlines flight 370 captured the worlds attention and shocked everyone. The book takes you to Kuala Lumpur International Airport on March 8 and brings together the lives of passengers and crew who ultimately met their fate on board what should have been a routine flight to Beijing on a well respected airline operating a state-of-the-art airliner with a near faultless record. For the first time the book presents a detailed analysis of the flight, the incredible route it took, and who the authors believe was in charge of the aircraft as it plunged into the Indian Ocean. The book investigates each piece of evidence and eliminates all the possible scenarios until the reader is left with one shocking and unbelievable conclusion as to what happened to end the lives of 239 people that night. What happened to MH370 was no accident. It was deliberate and it was calculated and it should never have been allowed to happen. The authors Geoff Taylor is a highly respected career journalist who is now deputy editor of the Waikato Times newspaper, one of New Zealands leading daily papers. Ewan Wilson is a commercial pilot, former chief executive of Kiwi International Airlines and Norfolk Air and has qualifications as a Transport safety investigator. Good Night Malaysia 370 is Wilsons third book. He has also written Help My Planes on Fire while his first book Dogfight became a New Zealand best seller. -
