

Embracing Spirit

This book is about our loved ones in the spirit world and their ability to communicate in the most unlikely of places. There is a new wave of interest in the Ghostbox. This is a radio sweeps continuously instead of stopping at a station. The theory is that Spirit can use the white noise generated or manipulate the voices on the radio. You do not need a Ghostbox to get started; you can manually sweep and ask a question while using the book. I have had some amazing EVPs from the radio, which you can receive free with this book or listen to on my blog. They are truly wonderful. I also speak about my experiences with Spirit to show people that Spirit are beside you all the time and all you have to do is look in the right places. This book shows you the right places. People are afraid of ghosts but I want them to see that their family in the spirit-world are not ghosts, they are still the family they knew before. I hope to take away the fear of communication with Spirit, demons and ghosts. By sharing my experiences with them, I am hoping it brings them closer to communicating with their loved ones. The book covers; recordings from Spirit, psychic art, automatic writing, some amazing spiritual experiences, angels, aliens, some amazing pictures of orbs, UFOs and strange formations with clouds, smoke and even birds.
