Hang on tight as Hypothetical Erotica takes you around the globe and throws you right in the middle of the most interesting dilemmas:

You have a chance to participate in a top secret experiment that will put you in the body of the opposite sex for an hour--with some special instructions. Will you go through with it?

You're away on business when your lover calls to tell you about an unusual evening he/she had. Will you forgive them? You find yourself in a prison cell in Istanbul. Which of the two ways to serve time will you choose? You've met the mate of your dreams--but how will you deal with the one thing they will never do? You're in Europe, in the midst of the most erotic encounter of your life--until your partner shares a secret with you. What will you do? And many more... This original, hard cover edition measures 7 X 10, is 208 pages, and includes a beautiful, full-color dust jacket and a 70-minute CD. The book features 25 different hypos, a detailed Findings section and 25 strikingly original works of art by Christopher Auman, making it an excellent coffee table-style conversation book. The accompanying CD features spoken word renditions of all 25 hypotheticals (performed by Bobby), complete with transitional music and true-to-life ambient sounds just like you were there!
