

Is the American Dream Killing You?: How the Market Rules Our Lives

The market is the collective name for every act of buying and selling we participate in. It governs our economy and our lives, determining our values, our goals, and our accomplishments. We make it and are made by it. In *Is the American Dream Killing You?* Paul Stiles shows how the pressures of the market are causing undue stress in all our lives. He explains why there is so little trust in companies, why it seems harder to feel secure, and why we never seem to be able to rest anymore. In this stunningly well-researched and elegantly argued book, Stiles shows that the harried, anxious lives we lead have one common pressure: the market.
