

## Its All Light: The Morpnic Resonance of Light: A Unified Theory

Gloria Prema is an author, educator and therapist. With the publication of *Its All Light* in 2009, and revised in 2016 for greater clarity, she has simplified and unified the laws of science with spirituality and has truly come up with the Grand Unified Theory. God is not a man proclaims one subtitle and she gives ample scientific evidence for why this is so. The false divisions and polarities that humanity is ensnared within, she reveals, are the reason for world tension. When a dialectic view is taken (seen from a higher perspective) both polarities can be seen to be part of one spectrum. This is as true for male / female as it is for quantum theory / relativity theory; apparent opposites, but not really, when viewed from a dialectic perspective. She explains easily and clearly, and using simple physics, how this process reveals that not only is God or spirit both male and female equally, but that quantum theory and relativity theory are the same thing, relative to the speed of consciousness. Sound and light are also the same thing, relative to speed and this is the basis for her morpnic resonance of light. Light resonating to sound is the template for all life, making the universe and everything in it, a great orchestral harmony, of light, held together by slow light (sound). Some cultures have called this universal sound Om. This Om is Omniscient, Omnipresent and Omnipotent. Every assertion she makes is backed up by evidence, or proof, where proof is available. She occasionally utters the blasphemous light travels faster than light speed and indeed, this is the home of the so-called spiritual phenomena, but again, she backs this up with proof. The subject of dematerialisation and rematerialisation, often encountered with spiritual phenomena, she also backs up with proof. The next law, for science and religion, will be *The Morpnic Resonance of Light*. It will spawn new technologies, healing

methods, education and ways of living. Its the most comprehensive theory around and will answer your big questions at the same time. Fascinating, riveting and nothing like youve read before. www.ItsAllLight.co.uk
