

Tales of survival are as old as humanity! In *Survival: True Stories*, readers discover accounts of survival that required innovation, a thirst for adventure, and even a bit of brutality. Whether it's Shackleton on the frozen landscape of Antarctica or William Bligh and his loyal followers adrift in the Pacific after mutiny on the *Bounty*, survival is a fascinating topic for readers ages 9 to 12! *Survival* is the second book in the *Murder & Mayhem* series, which features true tales that whet kids' appetites for history by engaging them in genres with proven track records—mystery and adventure. History is made of near misses, unexplained disappearances, unsolved mysteries, and bizarre events that are almost too weird to be true—almost! The *Mystery & Mayhem* series delves into the past to provide kids with a jumping-off point into a lifelong habit of appreciating history. Each of the true tales told in *Survival* are paired with interesting facts about the setting, the industry, and the time period. A glossary and index provide the opportunity to practice using essential academic tools. These nonfiction narratives use clear, concise language with compelling plots that both avid and reluctant readers will be drawn to.
