

Lions (Predators)

Did you know that a lion can leap the length of a bus? Did you know that a lions roar can be heard 8 kilometres away? Did you know that lions spend half their lives sleeping? Learn all about these majestic animals - where they live, how they grow and learn, what they eat and the dangers they have to face. By the time youve finished reading, youll be a lion expert! The Animal Lives series: This series is a great introduction to the world of animals - where they live, how they grow and learn, what they eat and the dangers they have to face. Animal Lives has all the facts on your favourite ocean animals. Each title in this appealing series takes an up-close look at a different creature, exploring habitat, conservation and animal adaptation, as well as looking at the life cycle of the particular animal and the way the young survive - often against tremendous odds. This series also discusses the importance of protecting endangered species and their habitats. The Animal Lives series includes: Dolphins and Porpoises, 978-1-60992-689-2; Sharks, 978-1-60992-690-8; Lions, 978-1-60992-691-5; Giraffes, 978-1-60992-692-2
