

Photojournal of a Pennsylvania Natural Gas Well: Book 3: Starting to Drill

The author watched this natural gas well site and took over 8000 pictures over a year long period. This third volume has nearly 700 pictures and shows the activity from June 16, 2010 to July 16, 2010. It is intended to be a historical record and includes almost every picture taken during that period of time. There was no photo editing. Every picture that was viewable was included. This book records the start of drilling, and the day-to-day drilling activities.
