

Over the years Facebook has changed the way it manages this social media venue and its impact can be felt across the globe. Successful Facebook pages have toppled governments, started lucrative trends, fueled protests, made people rich and allow us to connect with thousands of raving fans. One of the biggest problems marketers face is how to ethically use and master Facebook to grow their business and do so in a simple way that will stand the test of time. There have been guides a plenty written on this subject. Most of these guides are difficult to implement and confusing and require you invest in Facebook apps additional guides and hire professionals to finish the job. I wanted to create a layman's guide that teaches in one read, the REAL and affordable way to grow your Facebook Fanpages using common sense and real world advice. Stuff that really works over and over, regardless of the changes Facebook rolls out. We know you will find some very useful tips throughout this book on how to gain more followers and likes on some of your facebook fanpages. We will guide you through the basics of setting up a page that has real viral potential and starting successful campaigns that have the ability to grow on their own. Love it or hate it, Facebook is still here to stay and we should utilize this incredible platform for getting people to notice and participate in our niche. There is no denying that it is one of the biggest social media tools in the world today. It is important that we as marketers try to simplify our marketing to highly effective things that work well to drive likes, optins, fans and eventually sales.
