What if you could earn money based on the results of your work instead of the number of hours worked? This means that the better you are at your work, the faster you can finish it. And the faster you can finish, the more work you can take -- which means more money. Don't you wish all jobs were like this? It's unfortunate that most jobs are stuck in the old tradition where employees are paid by the hour. You are not alone in wishing there was a job that offered autonomy instead of working from 9 to 5. In a sea of companies that promises to make you part of the successful few, it can be a bit confusing which companies to join. This book has all the valuable information you need to help you navigate the world of multi-marketing. In the book, Donovan discussed the following points: A list of the world's top 35 multi-level marketing companies How to successfully implement the multi-marketing model Myths about multi-level marketing Mistakes to avoid in
