

This guide, designed for all those involved in the oil industry, explains the main revenue instruments applying to UK oil production, royalty, petroleum revenue tax and corporation tax. It has been updated to include the effects of the 1988 Finance Act and the changes in licence interests, and discusses changes introduced by the 1990 and 1991 Finance Acts and developments in current law and practice. It includes information on oil pricing valuation provisions, illustrates the rates and calculation of royalty liabilities and includes tables of cases and statutes, specimen offshore licences and worked examples.
