

An inspiring collection of essays, in which Albert Einstein addresses the topics that fascinated him as a scientist, philosopher, and humanitarian. Divided by subject matter - "Science," "Convictions and Beliefs," "Public Affairs," etc. - these essays consider everything from the need for a "supranational" governing body to control war in the atomic age, to freedom in research and education, to Jewish history and Zionism, to explanations of the physics and scientific thought that brought him world recognition. Throughout, Einstein's clear, eloquent voice presents an idealist's vision and relays complex theories to the layperson. Einstein's essays share his philosophical beliefs, scientific reasoning, and hopes for a brighter future, and show how one of the greatest minds of all time fully engaged with the changing world around him. This authorized Philosophical Library audiobook features never-before-seen documents from the Albert Einstein Archives at the Hebrew University of Jerusalem. "Ethical axioms are found and tested not very differently from the axioms of science. Truth is what stands the test of experience." - Albert Einstein, "The Law of Science and the Laws of Ethics" Albert Einstein (1879–1955) was born in Germany and became an American citizen in 1940. A world-famous theoretical physicist, he was awarded the 1921 Nobel Prize for Physics and is renowned for his Theory of Relativity. In addition to his scientific work, Einstein was an influential humanist who spoke widely about politics, ethics, and social causes. After leaving Europe, Einstein taught at Princeton University. His theories were instrumental in shaping the atomic age.

The BIG Problem (and the Squirrel Who Eventually Solved It): Understanding Adjectives and Adverbs (Language on the Loose), Happy: 9 Real things that make us Happier (No Positive Thinking), When The Faux Capitalism Collapses - The New Currency System That Will Save The World: The Death Of The Secret Society Central Banks And Petrodollar (Japanese Edition), The Voyage of Odysseus (Jr. Graphic Myths: Greek Heroes), Labour and labour markets between town and countryside (Middle Ages - 19th century) (COMPARATIVE RURAL HISTORY OF THE NORTH SEA AREA), Happy Haunting, Amelia Bedelia (I Can Read: Level 2), Its All Light: The Morphic Resonance of Light: A Unified Theory, Visiting the Forest (Lively Pictures),
