

Prespacetime Journal Volume 5 Issue 11: Premomentumenergy Model: Generation of Relativistic Quantum Mechanics for a Dual Momentum-Energy

Prespacetime Journal (PSTJ, <http://www.prespacetime.com>) is a publication in which physicists, mathematicians and other learned scholars publish their research results and express their views on the origin, nature and mechanism of spacetime and its possible connection to a prespacetime. It is also a journal where all learned scholars can present their models and experimental results on elemental particles, fundamental forces including gravity and related topics. This is PSTJ Volume 5 Issue 11 first published in November 2014. It is entitled Premomentumenergy Model: Generation of Relativistic Quantum Mechanics for a Dual Momentum-Energy Universe and contains following articles: (1) Premomentumenergy Model I: Generation of Relativistic Quantum Mechanics for a Dual Momentum-Energy Universe; (2) Premomentumenergy Model II: Genesis of Self-Referential Matrix Law & Mathematics of Ether; and (3) Modeling Methods Based on Premomentumenergy Model.
