

Moreni - Un secol de petrol: 1900 - 2000 (Romanian Edition)

Dorinta noastra, a fost sa dedicam aceasta carte, fenomenului petrolier din zona Moreni, cu suisurile si coborasurile lui, dar mai ales acelor truditatori, care fie ca s-au numit putari, pacurari, petrolisti, au dus greul acestei activitati si au facut ca traditia sa mearga mai departe. Am pornit la realizarea lucrarii cu convingerea ca vom aduce contributii la clarificarea si aprofundarea unor aspecte interesante din trecutul extractiei petrolului in regiunea Moreni. Actionand pe un teren aproape nedefrisat, in special dupa 1925, ne-a revenit sarcina grea si dificila de a selecta si valorifica un imens material documentar, in parte neadus inca in circuitul istoric. In lucrare am citat mult, tocmai pentru a sublinia ca si pana acum au fost destui cercetatori, care, direct sau tangential, au avut preocupari si au realizat lucrari trainice in aceasata directie. In ceea ce ne priveste, ne-am straduit sa trasam niste repere care vor fi puncte de plecare pentru continuarea si aprofundarea propriei noastre cercetari si, poate si a altora, porniti sa exploreze istoria si prezentul industriei petroliere in regiunea Moreni.
