

Hidden Wars of the Holy Grail - The True History of King Jesus and His Family Bloodlines

About the Cover Art: The cover art includes a photograph of a painting created by Cesar Nostradamus, the son of Michel de Nostredame (Nostradamus). Observe the details of the painting including the two children and the adult male wearing the ruffled English collar. Note also the castles in the background. The plight of Jesus the Christed One has echoed in our ears and rested in our minds and hearts for more than two thousand years. The true tragedies of the human family of Jesus are told by the Divine Prophet Nostradamus. The ancient truths were held for over two thousand years, and for over five hundred years vigilant people of truth carefully protected it from the Inquisition at the risk of their lives. In the sixteenth century Nostradamus suffered more than once at the hands of the officers of the Inquisition. Barely escaping from them on several occasions he chose to conceal ancient truths in poetic verses that were presented to the royal court for posterity. This would preserve the secret story through time and through the bloody Inquisitions enforced by the controlling laws of the established Church. Our prophets hold truth and absolution through words and visions. Nostradamus was one of the most famous prophets in history and carried the wisdom of the ages and the voice of risen consciousness through his ancestors. Now is the time for his carefully guarded, high truths to be revealed. The story of Jesus and his family bloodlines has been suppressed by both the ancient and modern masterminds as well as the harbingers of the greatest plot and the bloodiest wars in history. Jesus married and had children, and the lurid history revealed about his family relationships will send the world reeling. What happened to the family bloodline of the King of Kings was a history that was suppressed and folded under the tarp of time. Those endeared ones who were closest to Jesus in the plot

of the crucifixion began a long, bloody war that would forever alter the course of the Holy Family of Jesus as well as the human destiny of every person on this planet. This tragic and heart wrenching tale was carefully guarded by the oldest families of the bloodlines of Jesus including the family of Nostradamus. This secret history was carried forth into the legends of King Arthur, concealed in the art of the master painters, coded into the architecture of cathedrals, and ultimately preserved in the illuminated tomes of Nostradamus. The knowledge of the crucifixion and the beliefs surrounding the death and resurrection of Jesus are the basis for all Christian religions on the planet. However, the true history that surrounds the events of the conspired crucifixion of Jesus and the plight of the Holy Family has never been revealed for fear that this knowledge would turn believers into disbelievers and cause chaos in the structure and power of the Church. The Church must release information so zealously censored and step up to completing the fragmented sects of religious doctrines to assist people in their individual relationships to God. The shocking revelations so long protected by the ingenious veiling of the prophet Nostradamus will forever change the way people view the origins of Christianity. These truths will also restore sense to the Holy Order that once fostered the lifeblood and salvation of humanity.
