

## Scientific Baseball

This is a manual, published in 1913, on how to play baseball. It was written by the legendary manager of the New York Giants, John J. McGraw! It is presented as it appeared then, in a style that was retained for many years by such publications as, The Sporting News. It contains a position-by position look at how the sport is played, including a detailed report on how to throw the various pitches. Included are the schedule of games for the 1913 season, statistics from the 1912 season, a listing of the Official Rules of Baseball for 1913, and vintage advertisements.
