

Sell more books using your AUTHOR WEBSITE:: The Easiest Way to Brand, Build, Market, and Manage Your Authorship

Writing a book is one of the most fulfilling things anyone can do. Its as important a milestone as getting married and having a child. In fact, its just like having a child. Youll think about it, wait for it to develop over many months, watch it grow, nurture it, give it everything youve got, and then send it on its way - out to the public to live a life of its own. ...and it will be part of your legacy, something youll leave to the world. But just like a child, after you have created it you need to help it grow before setting it in the world. Hello there, my name is Radu Balas. > Welcome to the definitive guide to helping writers make the most of their books. I will be teaching you how to: > Establish a brand > Build an audience > Easily create an author platform > How to make more money and sell more books using the internet
