

HERE ARE PLANS FOR TIME TRAVEL MACHINES THAT REALLY WORK -- THE MATERIAL FOR WHICH YOU CAN PURCHASE IN MOST HARDWARE STORES! They call Steven L. Gibbs, "The Rain Man Of Time Travel." Jesse Ventura recently discussed Steven's invention on his TV show, Conspiracy Theory. You have heard him on Coast to Coast speaking with Art Bell and George Noory -- Now learn about some of his simplest devices for Time Travel that you can actually implement to visit the past as well as the future, as meticulously noted by researcher Patricia Ress, who has detailed and sketched out Steven's work at its very basics for all to utilize NOW! Yes! This large workbook and study guide -- this is NOT a skimpy pamphlet like others dare to sell -- contains actual usable diagrams for time travel machines you can construct in a reasonable amount of time. Most essential parts can be easily obtained in your own town for a modest fee. Though science is only beginning to understand and dabble in time travel theories, practitioner Steven Gibbs says he has been zipping around through space and time for literally ages, and you can do the same. Now it is possible, say researchers, to travel back in time and alter events in your own life so that they later take place in a more positive manner. Segments of this great work include: O The Power Of Resonance. O What Is The Perfect Time Travel Equation? O Revealing The Mystery Behind Vortexes. O The Number of Sub-Dimensions And How To Access Them! PLEASE NOTE -- THIS MATERIAL IS NOT MEANT TO BE USED FOR UNLAWFUL OR IMMORAL PURPOSES. Furthermore, this book contains GOVERNMENT TIME TRAVEL SECRETS, the codes of which have been cracked by some of the top researchers in this fascinating field. This book is the only reference on the subject that thousands of truth seekers have long been asking for. RIDE THE WAVE OF THE FUTURE! PERFECTLY SAFE --- TRY FOR YOURSELF!
