

The New Art of Erotic Massage

Sensual and erotic massage can restore the sparkle to a sexual relationship, or deepen one that's already strong. Thanks to this lavish, tastefully photographed guide—a longtime bestseller, back again with more color and even more depth—all couples can enjoy this vital way of enriching their romantic life. It explains the difference between the sensual and the erotic approach, and gives the basic skills, strokes, and techniques for both. Limb by limb, muscle by muscle, it covers the entire body from the backs of the legs and arms to the shoulders and neck, from a spinal stretch to the toes. In addition, lovers will appreciate the extra advice on setting the scene and enhancing the massage with aromatherapy, shiatsu, acupressure, and reflexology.
