

The Frog Prince Continued: Teachers Guide

After the Princess kissed the frog, he turned into a handsome prince and they lived happily ever after... or did they? The Princess can't stand the Prince's froggy habits - the way he hops around on the furniture, or sneaks off to the lily pond. The Prince is unhappy, too, and decides that it would be best if he were changed back to a frog. But finding a witch who will do the job is harder than he expects. They all seem to have other spells in mind...
