

The Illustrated Guide To Threesome Sexual Positions: How To Take Sex To The Next Level

First of all, in the right situation, threesomes can be a lot of fun. There is an air of play that manifests itself in a threesome that does not necessarily appear when a couple is making love. There is a lot of sexual exploration and usually a lot of laughing and giggling in a threesome. Threesomes also have a way of capturing our imaginations and our fantasies as well. A man will fantasize about being with two women. A woman will fantasize about what it is like to be with two men. Both sexes fantasize about what it is like to be with a partner from each gender at the same time. If you have had a threesome you probably had fun. If you haven't you are most likely curious. Either way, whoever you are, there is a good chance that a threesome is somewhere in your fantasy wishes. This book was designed for both people who are new to threesomes and people who are experienced. Inside you will find detailed information concerning many threesome sexual positions. Some may be familiar, however, many may never have crossed your mind. The author has compiled this work in the hopes that you can experience them all as you explore this more tantalizing and seductive realm of human sexuality. With this book, you will certainly have fun doing so!
