

## Jade Elephant - Second Edition

After Victor and Maya Green gain their powers in their first adventure Green Spring, they travel to visit their friend, Anju, in India. Anju takes the Green Kids for a ride on her prized elephant only to come across a wild herd that is planning on trampling her village if they continue to destroy the land that the elephants depend on. Can the Green Kids come to the rescue and save the village and the mighty elephants? Members of the Green Kids Club are working with animals to improve our world by using basic sustainability concepts of preservation, reduction, prevention and mitigation. This full color, illustrated story also includes a science section, photos and facts about elephants.
