

# The Other Side of Desire: Four Journeys into the Far Realms of Lust and Longing

Riveting. Powerful as much about desire and what's normal as it is an exploration of why we are the way we are, whether we like it or not. New York Times Book Review Subtitled Four Journeys into the Far Realms of Lust and Longing, Daniel Bergner's *The Other Side of Desire* is a literary exploration of science and sex that will appeal to readers of Mary Roach and Natalie Angier. A cross between a top-rated HBO series [with] provocatively graphic sex, humorous dialogue, and moral ambiguity, (New York Times) and a profound, deeply humanizing study of sexuality, *The Other Side of Desire* has been called, a foray into extreme passion, in quest of the human soul (O, The Oprah Magazine) and its author, Bergner, a keen storyteller but above all a humane one (Salon.com).
