

The Jesus Papers: Exposing the Greatest Cover-Up in History (Plus)

What if everything we have been told about the origins of Christianity is a lie? What if a small group had always known the truth and had kept it hidden . . . until now? What if there is evidence that Jesus Christ survived the crucifixion? In *Holy Blood, Holy Grail* Michael Baigent and his co-authors Henry Lincoln and Richard Leigh stunned the world with a controversial theory that Jesus Christ and Mary Magdalene married and founded a holy bloodline. The book became an international publishing phenomenon and was one of the sources for Dan Brown's novel *The Da Vinci Code*. Now, with two additional decades of research behind him, Baigent's *The Jesus Papers* presents explosive new evidence that challenges everything we know about the life and death of Jesus.
