

Top 25 Retail KPIs of 2010

The Top 25 Retail KPIs of 2010 report provides insights into the state of retail performance measurement today by listing and analyzing the most visited KPIs for this industry on smartKPIs.com in 2010. In addition to KPI names, it contains a detailed description of each KPI, in the standard smartKPIs.com KPI documentation format, that includes fields such as: definition, purpose, calculation, limitation, overall notes and additional resources. While dominated by sales performance and store management, the report also contains KPIs from categories such as customer satisfaction, inventory management and sales variety. This product is part of the Top KPIs of 2010 series of reports and a result of the research program conducted by the analysts of smartKPIs.com in the area of integrated performance management and measurement. smartKPIs.com hosts the largest catalogue of thoroughly documented KPI examples, representing an excellent platform for research and dissemination of insights on KPIs and related topics. The hundreds of thousands of visits to smartKPIs.com and the thousands of KPIs visited, bookmarked and rated by members of this online community in 2010 provided a rich data set, which combined with further analysis from the editorial team, formed the basis of these research reports.
