

## Fundamental and Applied Spectroscopy: Second International Spectroscopy Conference, ISC 2007 (AIP Conference Proceedings / Atomic, Molecular, Chemical Physics)

The focus of the Second International Spectroscopy Conferences was spectroscopy and its applications in Physics, Chemistry and Biology. Researchers gathered in these fields from 15 countries, mainly North Africa and Europe. The Conference provided an opportunity to present and discuss the newest results in fundamental and applied spectroscopy from both theoretical and experimental sides. The cross-disciplinary aspects were emphasized and all papers have been peer-reviewed.
