

Wisdom for My Son and Daughter: A Man Takes a Philosophical Reflection on Life to Help, Guide, and Inspire Society and His Children

(Self-development, self-improvement)
Life: what is it all about? Why do we often approach it the wrong way? Why are there so many pitfalls we have to be careful of? We all want the best for our offspring as they grow into adulthood. We want them to have WISDOM, to learn from our mistakes, to be aware of the wonderful and not-so-wonderful aspects of the world. How can we enhance our life and theirs using positive psychology, knowledge and awareness? The world is rapidly changing; it has many problems. Wouldn't life be easier if we were given a manual on the human condition, an operating guide to human emotions including some sound, thought-out advice? If I were to die tomorrow, what would I leave to help and guide others? Could I reflect on my life and that of others in order to help my children and society? These are some of the questions the author had in mind in developing *Wisdom for My Son and Daughter*. The author touches on many subjects of immense interest and sometimes controversy. Psychology, philosophy, science, politics and religion are all looked at in relation to life, with pragmatic reasoning.
